

K-LOVE is listened all throughout the grand vally and people get the message about Jesus and hear the wonderful songs that they play and get saved. I'm 17 years old and when my friends ride with me I always have the station on 90.3 which is K-LOVE and they always listen which they never listen to it on their own and I know that the words they are hearing is planting a musterd seed about, Jesus and how he died on the cross for us in them, to ask quistions. If k-love gets replaced with a lpfm then we will not have the great positive and encouraging k-love to help us through our days and to help minister to other people. Like I said people across the whole grand vally listen to it and across the U.S. I think it is in the publics intrests because it is so positive and encouraging for all who listen to it.
